BOWLING

SET B BASIC

**Thank you for participating in our
Math Dice Classroom Program!**

We hope you enjoy this week's paper and pencil game.

This packet includes:

- **How to Play Instructions**
- **6 Challenges**
- **Solution Sheet**

MATHDICE[®]

BOWLING

How To Play

Your Goal:

Identify the number of Target Pins that CAN'T BE HIT by either of the Scoring Balls.

To Play:

Using Math Dice rules, hit as many of the Target Pins as you can. To "hit" a Target Pin, use all three Scoring Numbers to create a math expression that equals the Target Number.

Some of the pins can be hit by one Scoring Ball, others can be hit by the other Scoring Ball and some can't be hit by either ball.

Working with one Target Pin at a time, try to find an equation first with one ball and then the next. Write all of your solutions on your worksheet.

When you are finished, count the number of Target Pins you CAN'T HIT and record your "Total that CAN'T BE SOLVED" answer in the lower right corner box.

$5 \times (2 + 6) = 40$

12	12	$4 \times (5 - 2) = 12$	<input type="checkbox"/>
20	20		<input checked="" type="checkbox"/>
22	22	$(4 \times 5) + 2 = 22$	<input type="checkbox"/>
34	34	$(5 \times 6) + 4 = 34$	<input type="checkbox"/>
38	38		<input checked="" type="checkbox"/>
40	40	$(2 \times 4) \times 5 = 40$	<input type="checkbox"/>
