

MATHDICE[®]

CLASSROOM

10 TOUGH CHALLENGES

How To Play

Your Goal

Solve as many of the 10 Math Dice challenges as you can.

To Play

Using Math Dice rules, for each challenge combine the Scoring numbers with two operations and a parentheses to create a math expression that equals the Target Number.

With some Challenge Sets you will draw from operators (+ - *) and from others you will draw from operators (+ - * / ^)

Scoring Numbers			Correct Solution	Target Number
2	3	6	$(3 + 6) * 2$	18

To Win

When you solve all 10 challenges, YOU WIN!

If you are playing for Math Dice Classroom points, score 1 point for each correct solution.
